э.	<ul> <li>Diabetes Self Management Education and Support (DSMES) Toolkit</li> <li>Laura Edwards discussed the DSMES toolkit and content, which she did under contract</li> </ul>	No
	with UNC Chapel Hill for CDC.	
	- The goal of the project is to increase access to quality DSMES programs that meet the	
	National Standards for DSMES.	
	- The primary audience for the DSMES Toolkit is state health departments, to help	
	interested parties understand the organization requirements to start a DSMES program	
	and navigate the tools and resources for becoming a recognized provider.	
4.	DiabetesSmart Overview	No
	- Sanga Krupakar, Diabetes and Health Disease Quality Coordinator, NC Division of	
	Public Health presented DiabetesSmart, a diabetes education recognition program.	
	- North Carolina was the first state health department to create a statewide umbrella	
	program for Diabetes Self-Management Education and Support Programs (DSMES).	
	<ul> <li>The Division of Public Health handles all the administrative aspects of being an ADA-recognized DSMES program allowing the sites to focus solely on program</li> </ul>
